

Portfolio Objective

The fund aims to provide the investor with an easy, efficient and affordable vehicle for investing in shares on the Namibian Stock Exchange and Johannesburg Securities Exchange. The medium to long term goal is to provide superior returns while also containing the risks associated with Equity investments. This is achieved by investing in a broadly diversified portfolio and by active management. The fund will manage exposure to the market in general and to sectors in particular to achieve lower volatility of returns. Our stance within portfolios is defensive, preferring to invest in companies whose fundamental valuation remains compelling irrespective of the economic outlook and outcome. We believe this is prudent given heightened uncertainty.

Investable Universe of Portfolio

In order to achieve this objective, the securities normally to be included in the FNB Namibia Unit Trusts General Equity Fund will comprise a combination of financially sound ordinary shares and fixed income securities. The manager will be permitted to invest on behalf of the FNB Namibia Unit Trusts General Equity Fund in offshore investments as permitted by legislation.
