Fund Manager Contact Details	Ashburton Investments Namibia Pointbreak Building c/o Schanzen & Sinclair Street Windhoek
Trustee Contact Details	Standard Bank Nominees Standard Bank Centre c/o Werner List & Post Street Windhoek

Fund Commentary

Namibian annual CPI inflation came in at 2.7% for February 2021 (February 2020: 2.5%), while declining in South Africa to 2.9% (February 2020: 4.6%).

Rising inflation fears (driven by a stronger conviction of global economic recovery on the back of vaccine rollouts) have lifted 10-year US Treasuries from 1.42% to 1.75% throughout March, with emerging markets bond curves following up.

The South African money market curve steepened, with 12-month Jibar pricing up 19bpts from 4.44% to 4.63% (3-month Jibar up from 3.64% to 4.68%), while the Namibian money market curve remained idle, backed by a high level of excess bank liquidity.

The fund remains defensively positioned and we expect the yield to bottom out by 2Q21.

Past Performance

For the period ended 31 March 2021, annualised net of fees

Period	1-month	3-month	6-month	1-year	3-year
Fund Performance	3.74%	3.88%	4.07%	4.84%	6.32%

Asset Allocation

Who Should Invest?

The FNB Namibia Corporate Fund is suitable for investors seeking a low risk investment that maximises income. It offers a high income yield, capital stability and good liquidity.

Investment Objective

The fund's objective is to achieve an investment return in excess of general money market instruments and funds, while ensuring a high degree of liquidity, capital preservation and below average risk. The fund invests with the four major banking groups in Namibia, the five major banking groups in South Africa, Nampost Namibia and the Namibian, - and South African Reserve Bank. Securities to be included in the portfolio consist of money market instruments, participatory interests in unit trust schemes, bank call and fixed deposits, fixed income securities, government bills and bonds, quality commercial paper and repurchase agreements.

Collective Investment Schemes in Securities (unit trusts) are generally medium to long term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit Trust prices are calculated on a net asset value basis, which is the total capital value invested including any income accrual and less any permissible deductions from the portfolio divided by the number of units in issue. Income accruals are made daily and paid out monthly. Purchase and repurchase requests may be received by the manager by 10h00 each business day. Permissible deductions may include management fees, brokerage, NAMFISA levies, auditor's fees, bank charges, trustee fees and RSC levies. A schedule of fees and charges is available on request from Ashburton Unit Trust Management Company. Commission and incentives may be paid and if so, would be included in the overall costs. The FNB Namibia Corporate Fund is managed by Ashburton Unit Trust Management Company Ltd (89/485), a NAMFISA registered (25/9/5/3) Unit Trust Management Company.
