Who Should Invest?

The FNB Namibia Corporate Fund is suitable for investors seeking a low risk investment that maximises income. It offers a high income yield, capital stability and good liquidity.

Investment Objective

The fund's objective is to achieve an investment return in excess of general money market instruments and funds, while ensuring a high degree of liquidity, capital preservation and below average risk. The fund invests primarily with the four major banking groups in Namibia, the five major banking groups in South Africa, Nampost Namibia and the Namibian,- and South African governments. Securities to be included in the portfolio consist of money market instruments, participatory interests in unit trust schemes, bank call and fixed deposits, fixed income securities, government bills and bonds, quality commercial paper and repurchase agreements.

Historical Distributions

Month	Mar-21	Apr-21	May-21	Jun-21	Jul-21	Aug-21	Sep-21	Oct-21	Nov-21	Dec-21	Jan-22	Feb-22
Distribution (cents per unit)	0.3326	0.2979	0.3040	0.2938	0.2977	0.3200	0.3049	0.3005	0.3361	0.3316	0.3382	0.3158
Average naca Rate	3.74%	3.68%	3.64%	3.63%	3.68%	3.71%	3.77%	3.85%	3.90%	3.98%	4.06%	4.19%

Collective Investment Schemes in Securities (unit trusts) are generally medium to long term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit Trust prices are calculated on a net asset value basis, which is the total capital value invested including any income accrual and less any permissible deductions from the portfolio divided by the number of units in issue. Income accruals are made daily and paid out monthly. Purchase and repurchase requests may be received by the manager by 10h00 each business day. Permissible deductions may include management fees, brokerage, NAMFISA levies, auditor's fees, bank charges, trustee fees and RSC levies. A schedule of fees and charges is available on request from Ashburton Unit Trust Management Company. Commission and incentives may be paid and if so, would be included in the overall costs. The FNB Namibia Corporate Fund is managed by Ashburton Unit Trust Management Company Ltd (89/485), a NAMFISA registered (25/9/5/3) Unit Trust Management Company.

Fund Commentary

Annual CPI inflation figures remain elevated, with January readings coming in at 5.7% for South Africa and at 4.6% for Namibia. Brent Crude Oil crossed the US\$100/bbl level late in February on Ukraine / Russian tension, significantly increasing the upside risk to price levels. The Bank of Namibia followed the South Africa Reserve Bank, increasing the Repo Rate by 25bpts to 4.00% in its February MPC meeting, in line with market expectation. The Namibian NCD curve lifted by 15bpts on the short end, with the 6-12 month-tensors pricing 25bpts higher. A similar upward shift was seen in the Namibian Treasury-Bill market. The South African NCD curve steepened significantly, with the 12-month Jibar rate picking up by 35bpts throughout the month.

Given the fund's duration profile we expect a continuous pass-through effect from rate hikes and gradual increase in yield going forward.
