Who Should Invest?

The FNB Namibia Money Market Fund is suitable for investors seeking a low risk investment that maximises income. It offers a high income yield, capital stability and good liquidity.

Investment Objective

The fund's objective is to achieve an investment return in excess of general money market instruments and funds, while ensuring a high degree of liquidity, capital preservation and below average risk. The fund invests primarily with the four major banking groups in Namibia, the five major banking groups in South Africa, Nampost Namibia and the Namibian, - and South African governments. Securities to be included in the portfolio consist of money market instruments, participatory interests in unit trust schemes, bank call and fixed deposits, fixed income securities, government bills and bonds, quality commercial paper and repurchase agreements.

Historical Distributions

Month	Nov-21	Dec-21	Jan-22	Feb-22	Mar-22	Apr-22	May-22	Jun-22	Jul-22	Aug-22	Sep-22	Oct-22
Distribution (cents per unit)	0.3359	0.3559	0.3634	0.3391	0.3877	0.3927	0.4190	0.4209	0.4516	0.4672	0.4732	0.5115
Average naca Rate	4.16%	4.27%	4.36%	4.51%	4.66%	4.88%	5.05%	5.24%	5.45%	5.64%	5.91%	6.19%

Collective Investment Schemes in Securities (unit trusts) are generally medium to long term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit Trust prices are calculated on a net asset value basis, which is the total capital value invested including any income accrual and less any permissible deductions from the portfolio divided by the number of units in issue. Income accruals are made daily and paid out monthly. Purchase and repurchase requests may be received by the manager by 10h00 each business day. Permissible deductions may include management fees, brokerage, NAMFISA levies, auditor's fees, bank charges, trustee fees and RSC levies. A schedule of fees and charges is available on request from Ashburton Unit Trust Management Company. Commission and incentives may be paid and if so, would be included in the overall costs. The FNB Namibia Money Market Fund is managed by Ashburton Unit Trust Management Company Ltd (89/485), a NAMFISA registered (25/9/5/3) Unit Trust Management Company.

A subsidiary of FirstRand Namibia Limited

Ashburton Unit Trust Management Company Limited (Reg. No. 89/485)

** South African with Namibian Permanent Residence

Fund Commentary

Despite having passed their expected peaks, global and local inflation figures remain sticky and cooling-off may take longer than markets have initially anticipated. Namibian annual inflation slowed to 7.1% in September (September 2021: 3.5%), from 7.3% in August. South African annual headline CPI came in at 7.5% (September 2021: 5.0%), mainly driven by the continuous increase in transport and food prices.

The bank of Namibia has followed the SARB (and Federal Reserve) with a second consecutive 75bps hike, increasing the repo rate to 6.25%, during October. We expect the three central banks to raise their respective rates by another 75bps during November.

South Africa's money market curve has flattened throughout the month, with long rates decreasing. The Namibian money curve steepened further, with the longer end lifting -particularly in the Treasury-Bill market.

Past Performance
